About Biosoft

Part of the SSIZ International family, Biosoft is a trusted professional salon brand with 19+ years of excellence in advanced epilation solutions across India. Made in Italy, Biosoft products are designed to deliver gentle, effective, and salon-quality waxing experiences while helping reduce redness, inflammation, and downtime. With 1,00,000+ successfully trained therapists across India, 10,000+ happy customers, and 100+ events across the country, Biosoft continues to be a preferred choice for professional salons. Its complete range includes Liposoluble Wax, Roll-On Cartridges, Brazilian Stripless Wax, Paraffin Wax, Pre Wax Gels, Post Wax Oils, Wax Heaters, and professional tools, offering complete epilation solutions for every salon need.

LIPOSOLUBLE ROLL ON WAX

HOW TO USE (LIPOSOLUBLE ROLL ON WAX) GET TO KNOW OUR RANGE:

Professional step-by-step (Salon Service)

01

Sanitize / Wash your hands with soap and water and pat dry.

07

Follow the same procedure for the rest of the body parts to remove unwanted hair.

02

Consult your client for any special needs before you start the service.

08

After waxing, apply Biosoft Post wax oil and lightly massage over the waxed area to get rid of wax residues and replenish the skin's moisture barrier.

03

Insert the wax cartridge in the Roll-on Wax Heater and heat the wax.

04

Use Biosoft Pre wax gel to cleanse the area to be waxed for better adherence and smoother hair removal.

05

Hold the cartridge at approximately 45° angle and apply the roll-on wax in the direction of the hair growth.

06

Place a Biosoft Non-woven wax strip over this area and press down firmly over the wax. Hold the skin tightly and pull the strip quickly in the opposite direction of the hair growth.

LIPOSOLUBLE TIN WAX

HOW TO USE (LIPOSOLUBLE TIN WAX) GET TO KNOW OUR RANGE:

Professional step-by-step (Salon Service)

01

Sanitize / Wash your hands with soap and water and pat dry.

07

Follow the same procedure for the rest of the body parts to remove unwanted hair.

02

Consult your client for any special needs before you start the service.

08

After waxing, apply Biosoft post wax oil and lightly massage over the waxed area to get rid of wax residues and replenish the skin's moisture barrier.

03

Place the tin wax in the Biosoft wax heater and heat until it reaches a smooth, honey-like

04

Use biosoft pre wax gel to cleanse the area to be waxed for better adherence and smoother hair removal.

05

Using a spatula, apply a thin, even layer of wax to the area at approximately a 45° angle, in the direction of hair growth.

06

Place a Biosoft Non-woven wax strip over this area and press down firmly over the wax. Hold the skin tightly and pull the strip quickly in the opposite direction to the hair growth.

LIPOSOLUBLE TIN WAX

1. CHARCOAL

(Oily Skin)

Our Charcoal Liposoluble Wax is a salon favourite, enriched with natural ingredients to gently remove unwanted hair and help unclog pores. It leaves skin feeling clean, smooth, and refreshed for a comfortable waxing experience.

2. WHITE CHOCOLATE

(All skin types)

Our White Chocolate Liposoluble Wax is a salon favourite, loved for its rich texture and soothing comfort. It nourishes the skin, leaving it soft, smooth, shiny, and deeply moisturised for a luxurious waxing experience.

3. ROSE

(Sensitive Skin)

Our Rose Liposoluble Wax is a salon favourite, perfect for sensitive skin. Its creamy texture ensures a smooth, comfortable, and less painful waxing experience while leaving skin soft and refreshed.

4. ALOE VERA

(Sensitive Skin)

Enriched with Aloe Vera, our Liposoluble Wax gently soothes the skin and helps minimise irritation, leaving it feeling calm, smooth, and refreshed after every waxing session.

LIPOSOLUBLE TIN WAX

5. GOLD

(All skin types)

Made with superior grade gold mica properties, our Gold Liposoluble Wax makes your skin smooth, soft while also giving it a shiny and radiant effect.

6. GREEN APPLE

(Normal Skin)

Our Green Apple Liposoluble Wax has a refreshing green apple scent and hydrating properties that effectively remove body hair while leaving your skin smooth and rejuvenated.

7. CHOCOLATE

(Dry skin)

Formulated with cocoa butter, our Chocolate Liposoluble Wax provides a painless experience while removing dead skin cells and effectively reducing tan.

8. BANANA

(All skin types)

Our Banana Liposoluble Wax is enriched with natural extracts for easy, comfortable, and less painful hair removal leaving the skin highly nourished and supple after every waxing session.

LIPOSOLUBLE TIN WAX

9. AZULENE

(Sensitive Skin)

Gentle and effective, our Azulene Liposoluble Wax is enriched with chamomile-derived guaiazulene that soothes and cares for all skin types during and after waxing.

6. COTTON SEED

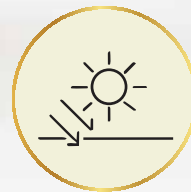

(All skin types)

Our Cotton Seed Liposoluble Wax is enriched with nourishing cotton seed extracts for a smooth, gentle, and comfortable hair removal experience, leaving the skin soft, moisturised, and refreshed after every waxing session.

BRAZILIAN STRIPLLESS WAX

BIOSOFT

PREMIUM WAXING SOLUTIONS

BRAZILIAN STRIPLLESS WAX

NO-STRIP DISPOSABLE WAX

- PAINLESS AND GENTLE STRIPLLESS WAX
- IDEAL FOR SENSITIVE AREAS LIKE FACE, BIKINI AREAS AND ARMPITS
- REMOVES LAYERS OF DEAD SKIN
- CAN BE REAPPLIED ON THE SAME SPOT TWICE IF REQUIRED
- REMOVES FINE AND INGROWN HAIR
- QUICKLY HEATS UP DUE TO LOW MELTING POINT

www.biosoftbeauty.com

HOW TO USE (BRIZILIAN STRIPLESS WAX) GET TO KNOW OUR RANGE:

Professional step-by-step (Salon Service)

01

Sanitize / Wash your hands with soap and water and pat dry.

02

Consult your client for any special needs before you start the service.

03

Pour the Peelable wax beads in the foldable wax. Set the heater to maximum temperature until the wax melts. Check the consistency of wax before applying on the client's body. Maintain the heater temperature to under 90°C.

04

Use Biosoft Pre wax gel to cleanse the area to be waxed for better adherence and smoother hair removal.

05

Apply a medium thick layer of peelable wax with Biosoft disposable wooden spatula in the same direction of the hair growth using smaller section. Apply the wax in "C" shape for thicker edges. The thick end of the wax will make sure it does not break off in multiple pieces when being removed. Always use a clean spatula, NO DOUBLE DIPPING!

06

Pat the applied wax lightly. Let the wax dry then apply gentle pressure to loosen an edge of the wax. Hold skin tight and pull the dried wax against the direction of the hair growth.

07

Follow the same procedure for the rest of the body parts to remove unwanted hair.

08

After waxing, apply Biosoft Post wax oil and lightly massage over the waxed area to get rid of wax residues and replenish the skin's moisture barrier.

BRAZILIAN STRIPLESS WAX

1. ROSE

(All skin types)

Made for sensitive skin, this formula offers soothing moisture and natural floral aromas for an enhanced sensory experience.

500g

HOW TO USE (PARAFFIN WAX)

GET TO KNOW OUR RANGE:

Professional step-by-step (Salon Service)

01

Sanitize / Wash your hands with soap and water and pat dry.

07

Repeat this process until you have at least 3 to 4 layers of wax on the client's hands or feet.

02

Consult your client for any special needs before you start the service.

08

Leave on for 10-15 minutes.

03

Place Biosoft Paraffin wax in a paraffin wax heater and melt completely. The temperature should be at 50 °c minimum. Test product temperature before using, making sure that the temperature is not too high. (Do a patch/ temperature test on the back of your hand).
WARNING: Wax may burn if subjected to excessive heat. Never heat this product over direct flame.

09

Gently slide off the wax in one piece with clingwrap

04

Cleanse the area to be treated (hands and feet) properly with a cleansing lotion or hot towel/ disposable towel.

10

Apply Biosft Post oil or any soothing lotion

05

Apply Biosoft Post Wax Oil or any gentle moisturizing cream/nourishing oil on treated area.

06

Dip Method - Dip slowly hands/ feet into paraffin wax heater 4 to 5 times, allowing each layer to slightly dry before the next dip.
Brush Method - Apply melted paraffin wax with brush 4 to 5 layers
Ensure a thick, even coating forms.

PARAFFIN WAX

1. PEACH

BENEFITS:

Moisturizes dry skin

Softens rough hands/feet

Relieves joint stiffness

Spa like experience for the client

Protects skin barrier

WAX HEATERS

HOW TO USE (WAX HEATERS)

GET TO KNOW OUR RANGE:

Professional step-by-step (Salon Service)

01 Keep the machine on a steady and heatproof desk. 

02 Place the wax into the heater. 

03 Turn on the heater to melt the wax. 

04 At a high temperature, the indicator light will turn off automatically. 

05 Clean the skin before treatment. 

06 Apply the melted wax on skin equally. 

HEATERS

1. DOUBLE WAX HEATER

With a smooth stainless steel surface, protected see-through top, and removable lids for easy cleaning, it offers efficient functionality.

2. MULTI-FUNCTION WAX HEATER

Multi-function wax heater combines roll-on, tin, and peelable wax for quick and painless epilation ensuring faster service time.

3. SOLO WAX HEATER

Biosoft's Solo Wax Heater, with a circular element for fast melting, heat-resistant body, removable tin for easy cleaning, and adjustable thermostat, is versatile for various waxes.

4. FOLDABLE WAX HEATER

This versatile silicon wax warmer, with easy cleaning and quick heating, offers convenient hair removal at home or in the salon. Loved by professionals and consumers for its compact size.

HEATERS

5. TRIPLE ROLL ON WAX HEATER

Designed for busy salons, they heat three roll-ons simultaneously, eliminating the need for cleanup.

6. PRO ECO WAX HEATER

Pro Eco Wax Heater is designed for durability, featuring a sensor-controlled indicator light and high capacity for quick and even wax melting.

7. PRO WAX HEATER

Biosoft's Pro Wax Heater is built to last, featuring a sensor-controlled indicator light, ample capacity, and rapid, even wax melting with a circular heating element.

8. ROLL ON WAX HEATER

Compact and efficient, they include a protective cover and indicator light for safety. Compatible with all Biosoft roll-on Wax Cartridges, these heaters streamline the application process, eliminating cleanup and cartridge removal.

WAXING GELS & OILS

HOW TO USE (PRE WAX GEL | POST WAX OIL)

GET TO KNOW OUR RANGE:

Professional step-by-step (Salon Service)

PRE WAX GEL

01

To prepare the skin for waxing, use the pre-wax gel, using a cotton pad.

02

Dab the gel on the skin and spread it on the area to be waxed.

03

Massage gently into skin until fully absorbed.

POST WAX OIL

01

Take a few drops of the oil on your palm.

02

Dab the oil on the waxed area.

03

Gently massage it for a while.

04

Wipe it off to remove wax residues.

GELS & OILS

1. COTTON MILK PRE WAX GEL

This special refreshing pre wax gel cleans the skin from deep within removing all traces of oil & cosmetic residues leaving a perfect skin surface for epilation. It is non-greasy and easy to dry. This gel improves adherence of the wax

2. COTTON SEED POST WAX OIL

This gentle after waxing oil softly removes waxing residue from the skin, restoring the skin's Hydro lipid barrier. Enriched with cotton seed oil, it is protective, calming, moisturizing and refreshing effect. It is non-greasy, quick absorb and contains a UV filter.

3. MENTHOL PRE WAX GEL

Enriched with menthol, it hydrates, cleanses, and boosts wax adherence, ensuring a comfortable and protective epilation experience.

4. MENTHOL POST WAX OIL

With antiseptic properties, it removes residue while providing a soothing menthol cooling sensation to alleviate discomfort associated with depilation.

GELS & OILS

5. LAVENDER PRE WAX GEL

Infused with Lavender Oil, Biosoft's Lavender Pre wax gel gently prepares and cleanses the skin for effective waxing, replacing the need for powder by creating a protective barrier.

6. LAVENDER AFTER WAX OIL

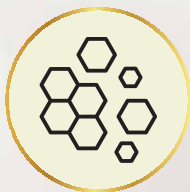

Infused with lavender, this soothing after-wax oil helps calm, nourish, and restore the skin while reducing irritation and post-wax discomfort. Its amazing aroma creates a relaxing, spa-like experience, leaving the skin feeling soft, refreshed, and beautifully cared for.

BENEFITS:

PRE WAX GEL

Skin purification and sanitization

Creates an ideal surface to improve wax grip

PRE WAX OIL

Post Wax Recovery And Repair

Indulgent After-Care Experience

ACCESSORIES

1. WAX STRIPS

These premium strips provide strong adhesion, tear-free removal, and the convenience of usability on both sides, making them versatile and ideal for complete body waxing.

2. WAX STRIPS ROLL

Durable non-woven strips with cotton-like comfort adhere firmly, don't tear, and can be used on both sides, making them ideal for efficient and pleasant full-body waxing.

3. SPATULAS

Designed for single use to ensure precision, these applicators prevent double-dipping, feature rounded ends, and are environmentally responsible with easy disposal.

4. FACE SPATULAS

With a slanted side and pointed tip, provide precise application for clean eyebrow shaping and are beginner-friendly for small waxing areas.

ROLL ON INTRO KIT

Experience effortless hair removal with the Biosoft Roll-On Waxing Kit, designed for salon-grade precision and at-home convenience. This compact kit includes a roll-on wax heater, 3 refill cartridges and non-woven strips for smooth application and hair removal. Prep your skin with a pre-gel, followed by an oil, ensuring a seamless and luxurious epilation experience every time.

STRIPLESS WAX KIT

The Biosoft Stripless Waxing Kit is designed for sensitive areas like the face and underarms. Its foldable silicone heater ensures hygienic, even melting, while the gentle bead wax grips hair effectively with minimal discomfort. Perfect for precise, smooth, long-lasting results—whether you're a professional or waxing at home.
